

17 May 1975

MEMORANDUM FOR: AD/DCI/IC

SUBJECT: USIB Committee Budget Requirements

On 18 April 1975, General Wilson sent a memo to the USIB Committee Chairmen inviting them to submit a recommended budget which he could review and place in context with the DCI overall USIB costs. All of the Committees except one -- CCPC -- responded. A summary of their response follows:

HSC

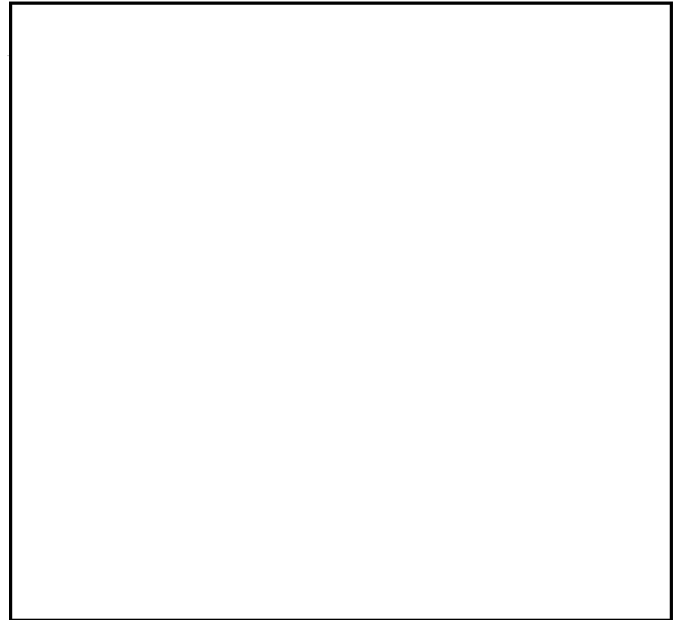

IHC

JAEIC

SIC

SIGINT

USIB/IRAC
Secretariat

Having collected this data the question remains what to do with it. The major problems to be worked out are with the GMAIC and SIC requests. Should we include these requested funds in our budget? Should we have a review session with them? Who should be handling this account for ICS?

Given the uneven nature of the response, it is not possible at this time to present an overall and complete USIB Committee budget to the DCI. Do we really want to pursue this to the point of preparing an actual budget? If so, how do we identify what is paid for by the Directorate versus what we should pay for? Are we prepared to stand behind the validity of the GMAIC and SIC requests?

Guidance please.
